My dear Bishop:

I noticed the two enclosed clippings in El mundo. Thought they might interest Mr Valentini. Possibly, we might get cocks of the reds and leghorns here at the college yards.

When are all of you coming over to spend the day with us? We would so like to have you. I wrote Mr Valentini the other day to let us know a day or two beforehand so we can make sure to be at home. We are taking some all day drives and want to be sure to be here when you come.

Hope you have good news of Mrs Ferrando and Edith. Please give them our regards. With all best wishes and regards to all of you, always, Very sincerely & affectionately,  
+ Chas. S. Olmos.
